VISTO il decreto-legge 24 giugno 2003, n. 147, convertito nella legge 1° agosto 2003, n. 200, recante proroga di termini e disposizioni urgenti ordinamentali;

VISTO lo Statuto dell'UNIRE approvato con decreto del Ministro delle politiche agricole e forestali di concerto con il Ministro dell'economia e delle finanze in data 2 luglio 2004;

VISTA la deliberazione commissariale del 23 maggio 2011, n. 58, di conferimento dell'incarico di Segretario generale dell'UNIRE;

Its operations are also delivered through retail, telephone, online and radio channels. Further it maintains a database, containing relevant information on horses, tracks and races.

2.3

UNIRE desires a license right to use, according to its needs, ATG's race card to create its own local pool ("Race card License") and UNIRE also desires a right to receive the simultaneous television transmissions ("Television Distribution Right").

2.4

Subject to clause 2.3 UNIRE warrants that UNIRE, according to applicable legislation in Italy, is entitled to enter into this Agreement and that there are no clauses in this Agreement that are contrary to Italian legal requirements.

2.5

The parties agree that modification or the amendment to the agreement shall be agreed upon from time to time in writing and signed by both parties.

3 Grant of Race card Licence

3.3

UNIRE shall exploit the Race card Licence only in connection with the simulcast of the races and in accordance with the applicable Italian rules.

3.4

ATG shall use its best efforts to ensure that such information made available to UNIRE is accurate and accessible in a timely manner.

4.3

The information specified above in clause 4.1 will be made available to UNIRE by ATG allowing UNIRE to access ATG's database at ATG's information centre at "www.atg.se", "www.atg.se/english" and "www.kanal75.se". ATG will provide UNIRE with passwords to the sites and the program information can be extracted by UNIRE and downloaded or used in an agreed format. UNIRE agrees that the information contained at the ATG information centre site fully complies with the agreed information requirements.

4.4

UNIRE agrees that any information that is extracted and downloaded from ATG's information centre site shall only be used by UNIRE in connection with UNIRE's marketing of the local pools relating to the races and for no other purpose.

Any liability for tax or betting duty shall be at the source where the bet is struck. No VAT is payable due to the licence payment within the contract.

6.2

Commission payment will always be in Swedish currency, specified in Appendix 2.

7 Grant of Television Distribution Right

7.1

ATG grants to UNIRE the non-exclusive right to receive and to redistribute simultaneously in Italy, via closed circuit video and data systems, live audiovisual and data signals of the live programs of ATG's races (the "Signals"), which are broadcast during ATG's racing meets. Any extension of UNIRE's right to redistribute also by means of national television in Italy is subject to ATG's prior written approval.

7.2

UNIRE may also use the broadcast for promotional purposes, such as for example presentation of horses and drivers, promotion pictures to UNIRE, Off Track Betting facilities, etc. Such use by UNIRE shall comply with any reasonable instructions as provided by ATG from time to time.

7.3

UNIRE agrees not to retransmit, rebroadcast or in any other way distribute or disseminate the Signals, to any person, entity or facility not located within Italy or as part of a cable television, computer or other rebroadcast or interactive system, unless, and only to the extent, that ATG's written consent has been

given or has been set forth in this Agreement. For private persons, ATG allows UNIRE to distribute the Signals only to their customers.

7.4

The foregoing, limited and non-exclusive right to simultaneous distribution of ATG's TV productions shall not include a right to tape, copy or otherwise use the Signals for any other purpose. 7.5

UNIRE agrees only to distribute the Signals via its circuit video and data systems to its point of sales members, including online, solely for display of the races in connection with the marketing of the Italian local pool. UNIRE agrees not to make the Signals available to point of sales members who allow for public display of the broadcast in any other manner.

7.6

Any redistribution of the Signals by UNIRE, apart from its TV channels, including UnireSat (ch. 220 Sky Italia) shall be encrypted in a manner approved in advance by ATG.

7.7

Any redistribution of the Signals by UNIRE shall be identical to the transmission of the Signals by ATG. UNIRE shall not alter or edit in any manner whatsoever the Signals as produced and transmitted by ATG, except that ATG grants to UNIRE the right to delete those portions of the audiovisual signals that contain prerace or postrace commentary and/or statements made by ATG's track announcer without any other deletion or alteration, and to add local commentary voices.

8. ATG's rights relating to the Signals

8.1

ATG reserves, for itself, its agents and UNIRE's, any and all rights relating to the Signals (except as granted to UNIRE in accordance with this Agreement) including but not limited to, the sole and non-exclusive right to produce, exhibit, sell, license, transfer or transmit in any manner, in still or in motion pictures, radio and television broadcasts or any other similar media transmission, now known or hereinafter developed, of all events, including the races, which occur on the premises of ATG or the respective racetracks (including, without limitation, all activities occurring before, during and after a race).

8.2

No rights in the trademarks, trade names, service marks, service names, copyright protected material, databases or other proprietary information of ATG is granted to UNIRE except as expressly set forth in the Agreement.

earth station device and encoding and decoding equipment for signal security purposes, selected by ATG. ATG will be responsible for providing at its cost the uplink device and transponder for transmitting the signals of the races and all technical services associated therewith. UNIRE shall be responsible for providing at its cost a compatible downlink device and decoder for receiving the signals of the races and all technical services associated therewith

9.2

ATG can as an alternative to satellite transmission provide UNIRE with the audiovisual signal of the races by live stream service by IP. This service contains the same audiovisual content as transmitted by satellite and will therefore be included within the definition of the 'Signal'.

UNIRE shall be responsible for providing at its cost the necessary implementation within their system for receiving the signals of the races and all technical services associated therewith. UNIRE shall be responsible to ensure ATG that the live stream service by IP shall only be accessed by their customers with secured technical solution ("behind login") and with no public access. ATG will provide UNIRE with technical specifications and support in order for UNIRE to receive the signal of live stream service by IP.

9.3

ATG has retained a contractor to provide decoding services connected with the Signals. Information with regard to ATG's contractor and the procedures for obtaining decoders shall be provided by ATG to UNIRE. ATG has also retained a contractor to provide live stream by IP services of the Signals. Information with regard to ATG's contractor and the procedures for obtaining necessary information shall be provided by ATG to UNIRE.

9.4

The simulcasts of the races shall be transmitted to UNIRE in the same manner as such races are displayed on ATG's television system.

9.5

The parties understand that the races are to be televised via satellite transmission or live stream by IP in accordance with contracts between ATG and satellite transmission and live stream by IP carriers who may have the right to preempt or cancel the transmission of the races. In the event of such preemption or cancellation, or if such transmission does not take place for any other reason, ATG shall not incur any liability to UNIRE or others.

9.6

To the extent that any races simulcasts to ATG from other racetracks shall be part of the Signals, they shall be transmitted to UNIRE in the same manner as such races are displayed on ATG's television system.

10 Fee for grant of License Race card and Television Distribution Right

10.1

As compensation for granting to UNIRE the Race card Licence and the Television Distribution Right, UNIRE shall pay to ATG:

- 10.1.1 three (3) per cent of the total turnover of each race/pool of the local Italian pool.

10.2

For any turnover on local Italian pools, UNIRE shall send to ATG, within five days after the running of the last race for a given week,

10.2.1 statement of the total turnover as well as an account of the handle for each type of wager, signed by an officer of the UNIRE, and

10.2.2 payment in full to ATG in the manner ATG will determine.

10.3

ATG reserves the right to withhold further transmissions of Signals in the event of late or non-payment of amounts owing under this Agreement.

10.4

On or before the tenth day after the last day of each racing meet, UNIRE shall submit verification of the accounting of the handles certified by an officer of the UNIRE. UNIRE shall maintain for a minimum of 24 months at its offices, complete and accurate books and records relating to its conduct of wagering in the races, which records shall be made available to ATG or its representatives upon request.

10.5

Unless otherwise specifically set forth in this Agreement, each party shall be solely responsible for expenses incurred by it in the performance of this Agreement and the operations of its facilities.

11 Limitation of ATG's liability

11.1

As regards the grant of the Race card Licence ATG does not guarantee the accuracy or completeness of the information made available. ATG shall not be liable to UNIRE in the event that for any reason any information transferred is not correct or complete. However, ATG agrees to use its best efforts to assure the reliability, accuracy, and timeliness of the information made available.

11.2

As regards the grant of the Television Distribution Rights and the corresponding transmission of Signals to UNIRE, ATG's obligations under this Agreement are, and shall be, deemed to be satisfied in full by making the Signals available for satellite uplink.
